

Emergency Plan for Gartmore Area

After the experiences of the last 2 winters, we have come up with some ideas/reminders to make our life easier, if it happens again.

1. Please clear the pavement outside your house. This will mean we can all get up to the shop (or pub!!)
2. The grit in the bins is for the pavements and roads, not for your garden path. Please buy your own salt so the roads and pavements can be kept clear.
3. Check on your elderly neighbours every day – make sure they have essentials. You might want to offer to get their shopping for them.
4. Remember to stock your freezer with extra milk – it freezes well and you won't run out. Also extra bread is a good idea.
5. Ask for help if you need it – people will be glad to help you.
6. Please watch where you park – keep corners free!!
7. Listen to local radio or check Stirling Council website for information. It will also be put on twitter and facebook.
8. Report any problems to Stirling Council Contact Centre - 0845 277 7000 or 01786 404040
